Thursday 27th

Dear Luna,

Shp Jackson & I, in making up our accounts for the "Boston Female's" year, find that we need some papers by way of vouchers — you can tell what, better than we, as you have the facts. I wanted to discuss of HB 84 of the donation of Thomas Stages thus:- through the Boston Female, to the American Soc, for your expenses at Washington:- consequently need some paper from I. I. Hopkins or yourself - you know what better than I, & if not too much trouble, I beg you to be so kind as to lend it. It is best to acknowledge the remainder of the sum somewhere, & as it was for the most part collected by the efforts & influence of members of the Boston Female, Mr Jackson thinks we had better make it appear through that Treasury:- so we should need a receipt from you. Do you not

think we ought to make an exertion
to have you there again this winter, if
you can make the sacrifice? If you
agree with me in this, pray let me
know how you would prefer to have it
done — whether by the same Line (what we
always are obliged, on our own thought it is, to
humbly sue for leave to do it good," & not always
able to get consent) or through the Mails —
or through the Boston Journals. For by
previous understanding & consideration, we
can do it the best way. I hope
you have not been a loser through
the last winter's arrangement by reason
of the miscarriage of our letters containing
(Money), as you feared was the case
when last we saw you. If you cannot
find that the money was all paid, either in
N. York or Washington, I should be glad
notwithstanding, to have the receipt so written
as to assume the auditor that it was all
sent, what Small as the whole sum was

it cost me, had I no other evidence. This
I can say to you, who have undergone

standing, may not to have my account as
Square as my actions.

I was very glad to hear of the
Forthcoming pertinent interrogatories. They
cannot fail to do great good. [Garrison
